Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 42 & 43 are rejected under 35 U.S.C. 102(b) as being anticipated by Hamilton (4,411,325).

Hamilton discloses a device capable of being used to plant seeds including a frame 12, a seed container 10, a support including weight sensing devices 14 and a display 16 as shown in figures 1 & 2. Concerning claim 43, when maintenance is performed on the supports of Hamilton, the claimed method steps would inherently be performed.
